

**Our mission is:**

**To create**

- economically self-sufficient,
- environmentally green,
- high-technology based

**Communities in which street orphans**

- live in a family,
- have surrogate parents and grandparents,
- receive healthcare,
- continue their education,
- learn computer skills,
- participate in social & recreational - receive job skills training and
- have an opportunity to attend college

**are better prepared for their and their country's future.**

Our Family Orphan Communities, Inc. is a Not-for-Profit 501(c)3 tax-exempt organization in service to homeless children around the world. Your donations are tax-deductible.

Help Our Family Help Them

**This is our family, this is our home.**

**Imagine** a world where the power and profit of private business enterprise is used to support humanitarian projects. Like providing homes and families to orphans.

Where Social Businesses are formed that use the latest knowledge in renewable resources, alternative energy, sustainable development and high-technology.

Where the profits are used to build and operate a community, with single family homes.

Where street orphans will live in a family with surrogate parents and grandparents who provide love, education, healthcare, skills training and jobs to prepare them for their and their country's future.

**Now join us** and the over 200 volunteers and donors, from more than 12 countries, who are working to make this community a reality.
